

STEEL | INNER DOOR ESCUTCHEONS | WALL MOUNTED

The IP Enclosures PSID range of steel Inner Door escutcheons are designed and manufactured to easily fit into any new or existing IP Enclosures wall mounted electrical enclosures without drilling. Inner doors are tool lockable.

It is important to check the depth of the enclosure to ensure that the minimum distance between the electrical components and inner door is maintained. Enclosures up to 400mm deep are available to ensure large components can be safely housed behind inner door escutcheons. *For clearance dimensions, please refer to the information table provided below.*

Material:

- Frame: 1.2mm to 1.5mm Galvanised steel sheet
- Door Panel: 1.2mm to 1.5mm Galvanised steel sheet

Lock: Chrome 5mm double bit insert quarter turn lock.

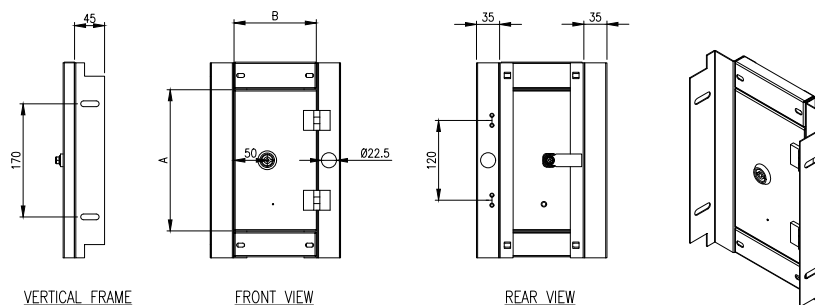

Surface Treatment: UL approved AkzoNobel epoxy polyester powder coated with a textured finish. 80-120 micron average thickness.

Standard Colour: RAL7035. Coloured inner doors are available if required.

Part Number	Enclosure Size	Inner Door Size	Weight	Clearance Dimensions
