

STAINLESS STEEL | INNER DOOR ESCUTCHEONS | WALL MOUNTED

The IP Enclosures SSID range of stainless steel Inner Door escutcheons are designed and manufactured to easily fit into any new or existing IP Enclosures wall mounted electrical enclosures without drilling. Inner doors are tool lockable.

It is important to check the depth of the enclosure to ensure that the minimum distance between the electrical components and inner door is maintained. Enclosures up to 400mm deep are available to ensure large components can be safely housed behind inner door escutcheons. *For clearance dimensions, please refer to the information table provided below.*

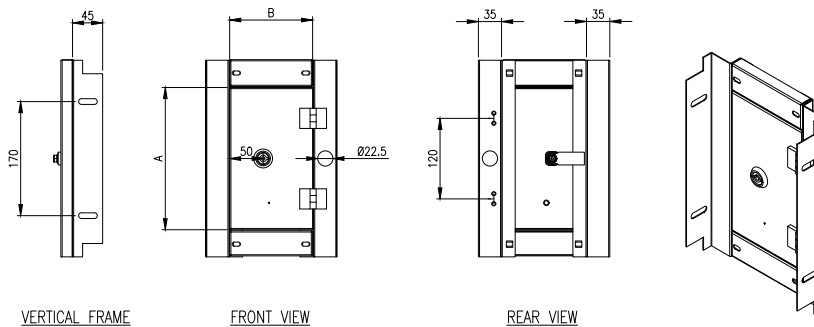

Material:

- Frame: 1.5mm Grade 316L stainless steel
- Door Panel: 1.5mm Grade 316L stainless steel

Lock: Grade 316L stainless steel 8mm square drive quarter turn lock.

Part Number	Enclosure Size	Inner Door Size	Weight	Clearance Dimensions					
				Inner Door to Outer Door	Inner Door to Mounting Plate				
					Enclosure Depth				
Inner Door	H x W (mm)	A x B (mm)	Kilogram (Kg)		150mm	200mm	250mm	300mm	400mm
